Personal Website

Address: South Banasree, Dhaka-1219, Bangladesh

Academic Credentials

Bangladesh University of Engineering and Technology (BUET)

Dhaka, Bangladesh

Bachelor of Architecture (B.Arch.)

Mar 18 – Jul 24

- **CGPA:** 3.24 out of 4.00 (In last 4 semesters CGPA: 3.48)
- **Relevant Courses:** Fundamentals of Urban Design, Urban Design Studio, Algorithmic Design in Architecture, Introduction to Interactive, Smart and Intelligent Architecture.

Research Experience

Undergraduate Research Work

Mar 22 - Apr 24

Thesis Title: “**Integration of workplace with urban fabric and local inhabitants**”

Supervisor: Dr. S M Najmul Imam

- This study explores the integration of ever-changing language of workplace with urban context and local people. A Business Hub of 21st century demands to perform not necessarily as a daytime work space only, it can be an inclusive park of urban city life. A Business Hub can be re-introduced as a City Square, center for youth software enthusiasts, freelancers as well as startup communities. It can also be imagined as a gathering place for youth & local people discussing contemporary issues.

Ongoing Research Work

Sep 23 - present

Title: “**The Effectiveness of Artificial Intelligence in the Architectural Design Process**”

Supervisor: Dr. Nayma Khan

- This study examines the aspects & effectiveness of AI based design tool or plugins in enhancing architectural design processes across different spatial contexts.
- Experimented text-to-image generator tools to as a process of concept generation to design a space
- Presented the initial research outcome in the Dept. of Architecture, BUET

Research Interests

- | | |
|--|---|
| ▪ Urban Informatics | ▪ Human-Centered Urban Systems |
| ▪ Urban Futures + Future of Work in Cities | ▪ Smart Cities & Urban Computing |
| ▪ Urban Analytics & City Science | ▪ Spatial Data Science & Geospatial Analytics |
| ▪ Built Environment + HCI | ▪ Human Computer Interaction |

Publications

Conference Proceedings:

“**Designing Edible Playscapes in Underutilized Urban Areas (Mirpur)**”

Ecocity Satellite Conference - 2021, Bangladesh & Nepal

M Kamrul, X, Y

- The research aimed at finding creative ideas and policy level solutions for a playful and productive urban green environment for future generations.

Professional Experience

Suvastu Properties Limited

Dhaka, Bangladesh

Trainee Executive (Design & Project Management)

Aug 25 – Current

- Working on BIM Co-ordination of upcoming projects
- Project Management of several ongoing real estate residential projects
- Assist in preparing technical reports and project documentation

Volumezero Limited

Architect/ Intern

Dhaka, Bangladesh

Nov 24 – May 25

- Worked on design, Revit modeling, BIM Co-ordination of several projects varies from residential apartments (Simpletree Treology), commercial projects & public spaces (Hijol Tomal Resort).
- Experiment on Fenestration Design of Asgar Ali Medical College, Dhaka

Bureau of Research, Testing and Consultation, Dept. of Architecture, BUET

Research Assistant

Dhaka, Bangladesh

Sep 24 – Mar 24

- Worked on data measurement & analysis of Architectural Acoustics' performance of Shahid Dr. Fazle Rabbi Park under a research project supervised by Dr. S M Najmul Imam.

Oculus Architects.Inc

Architectural Intern (Remote)

Maryland, USA

Mar 23 – Jun 23

- 3D Revit modelling & drawing of Single Unit Residences, College & Town House.
- Project documentation of Urbana Mosque & Islamic Center of Maryland.

Projects**Algorithmic Thinking in Design: Urban Area Analysis**

Mar 23

- Studied an urban area (2D, 3D & Graph) where the locality's circulation network, land use categories, floor count values were explored with various iteration of software & Plug-ins, example: Rhino3D, Jupyter Lab, Pandas, Plotly etc.

Urban Transit: Inclusion Of TOD For Designing Transfer Points & Public Space

Jun 22

- Explored context-specific, integrated urban design solutions for transfer points (outlets) of MRT Station
- Worked on how the transfer points of station on streets would effectively disperse traffic, allocate the necessary facilities like parking and interact with the existing land use, and develop public spaces.

Urban Waterfront: Addressing the Dynamic Transformation for Mawa

Aug 22

- Worked on Sustainable urban design strategies for Mawa Riverfront to address the development opportunities, environmental and ecological concerns to change the lives of local people.
- Proposed design framework for the waterfront & suggested specific urban design solutions.

Standardized Test Score**International English Language Testing System (IELTS)**

19th November, 24

- **Overall 7.5** (Listening: 8.0, Reading: 8.0, Writing: 6.5, Speaking: 6.5)

Technical Skills

- | | |
|---------------------|--|
| Design/ Drawing | : Autodesk Revit, AutoCAD, Rhinoceros+Gh, Sketchup |
| Adobe Creative Suit | : Photoshop, Lightroom, Illustrator, InDesign, Premier Pro |
| Microsoft Office | : Microsoft Word, Excel, PowerPoint |
| Simulation | : Space Syntax, Depthmap, Climate Studio |
| Programming | : Pandas, Plotly, Python |

Accolades

- **Associate Member (AH-578)**, Institute of Architects Bangladesh (IAB), since Feb 2025
- **Technical Scholarship** at BUET for 5 consecutive years for academic excellence
- **Class representative** of Architecture Department, BUET
- **Volunteer** at Work for A Better Bangladesh Trust
